Scoring Methodology

This sales pipeline report uses a BANT + MEDDIC scoring framework to evaluate and rank prospects. Each prospect is scored 0-100 based on four BANT dimensions (Budget, Authority, Need, Timeline), each weighted equally at 25 points. MEDDIC completeness is assessed as a supplementary qualification metric across six dimensions.

Dimension	Weight	Signals Measured
Budget	25 pts	Funding amount, employee count, pricing visibility, tech spend indicators, enterprise tool usage
Authority	25 pts	Decision makers identified, C-suite contacts found, org chart completeness, buying committee mapped
Need	25 pts	Pain points detected, relevant job postings, review complaints, competitor dissatisfaction signals
Timeline	25 pts	Active hiring for relevant roles, recent funding events, contract renewal timing, urgency mentions
